

CONNELLY
connellyskis.com.au

Hands down the best 34mph ski on the market today is the Carbon V.
Following on the incredible success of the V, the Carbon V is a 70% carbon version to add memory, response, stiffness and reduce weight. Six V-steps are molded into the hull for more efficient water flow. Change is not coming - Change is Here!

Junior Slalom Skis

Jnr. Pinnical

Boot: Basis Front/Adj. RTP

Level	Ski Sizes	Boot Sizes	HO-SKIS Cat. RRP Price
Pro	61"	Mini Std XL	
<input type="checkbox"/>			
<input type="checkbox"/>			
Beginner			

Developed from the Comp Freeride Series of skis, this rim moulded ski is great for kids starting out on a single ski, easy to get up on and stable to ride.

2 Year Warranty

Jnr. Assault

Boot: Focus Front/RTP

Level	Ski Sizes	Boot Sizes	HO-SKIS Cat. RRP Price
Pro	63.5"	Std	
<input type="checkbox"/>			
<input type="checkbox"/>			
Beginner			

This ski utilises the Hybrid Concave design and transitioning into a full edge to edge concave. This design helps the ski generate a smooth consistent edge change, whilst being able to maintain incredible angle through the wakes. The turn is nothing short of amazing.

1 Year Warranty

Jnr. Grifter

Boot: Basis Front/Adj. RTP

Level	Ski Sizes	Boot Sizes	HO-SKIS Cat. RRP Price
Pro	62"	Mini Std	
<input type="checkbox"/>			
<input type="checkbox"/>			
Beginner			

The Grifter employs a fibreglass construction and traditional polyurethane core for a stable and forgiving ride ensuring effortless deep water starts and wake crossings. The Grifter's size allows it to cut through the wakes more efficiently than shorter skis, eliminating the shovel experienced at reduced boat speeds.

2 Year Warranty

Jnr. A1 Team

Boot: Attack Front/RTP

Level	Ski Sizes	Boot Sizes	HO-SKIS Cat. RRP Price
Pro	62"	Mini Std	
<input type="checkbox"/>			
<input type="checkbox"/>			
Beginner			

The Syndicate Team wanted to give the stars of tomorrow the ski they need to take water skiing into a new era. The result is the A1 Team. The A1 Team is a unique blend between the stability elements of the A1 and the low drag, reduced physical effort ride of the S1, fine tuned for kids' reduced boat speed and slalom course lines. The A1 Team is a skiers ski and performance was not sacrificed in any detail; in fact, the A1 Team is built with the same 100% carbon fibre construction and polyvinyl chloride foam core as the A1 in a softer, kids-specific flex pattern.

2 Year Warranty

Pinnacle

Boot: Basis Front/Adj. RTP

Level	Ski Sizes	Boot Sizes
Pro	67"	Mini
		Std
		XL
Beginner		

Cat.	RRP	Price
	\$309	\$279

Developed from the Comp Freeride Series of skis, this rim moulded ski is great for starting out on a single ski, easy to get up on and stable to ride.

Comp Freeride

Boot: Basis Front/Adj. RTP

Level	Ski Sizes	Boot Sizes
Pro	65"	Mini
	67"	Std
	69"	XL
Beginner	71"	

Cat.	RRP	Price
	\$719	\$649

The Comp Freeride has extra width making it easy to get up on and the Power V bottom lends incredible stability while starting and cutting. The inside radius at the tail allows you to turn as tight and grab as much angle as you like. If you want to slow your boat speed down a little - go ahead and do it. More width means less drag, longer rides and more fun.

2 Year Warranty

Prophet

Boot: Focus Front/RTP

Level	Ski Sizes	Boot Sizes
Pro	65"	Std
	67"	XL
Beginner	69"	

Cat.	RRP	Price
	\$699	\$629

Slightly wider profile, the exclusive rocker line and bevels were designed to make skiing fun whether you are making a run through the slalom course or just riding on the lake. The wider fore body enables effortless deep water starts and makes skiing right out of the water fun for riders of all levels.

1 Year Warranty

Pro	63.5"	5-8
	67"	8-11
	68"	11-14
Beginner		

Cat.
RRP Price
\$939 \$849

A slalom ski with a turning and stability rating second to none in its class. The full concave bottom design rolls into a specially tested and designed bevel, which gives the ski a rock solid feel both on edge and during a coast, giving the skier complete feedback, with a controlled flat spot to allow the least amount of body movement to edge as easy or as hard as you want it to. The Defiant uses a hybrid carbon / fibreglass lay-up with a polyurethane core that enables this to be a consistent ski to ride.

Concept

Boot: Nova Front/Adj. RTP

Level	Ski Sizes	Boot Sizes
Pro	64"	S-M
	65"	L-XL
	66"	
	67"	
Beginner	68"	

Cat.
RRP Price
\$999 \$899

This unique blend of a high performance tunnel design, round bevels and an aggressive side-cut are combined with a soft flex pattern to make the Concept a ski everyone can fall in love with. The Concept is the definition of smoothness and consistency. The dual concave tunnel helps the ski hold edge easy while the huge flat spot assists in the forgiveness that makes the Concept what it is.

2 Year Warranty

Encore

Boot: Comfort Front/RTP

Level	Ski Sizes	Boot Sizes
Pro	65"	5-8
	67"	8-11
	68"	11-14
Beginner		

Cat.
RRP Price
\$1199 \$1079

The Encore is a lightweight full Carbon layup ski with new bevel designs for stability and directional feedback for the skier. The bevel was designed not only to hold the ski in position, but to also help determine what the angle and attitude of the ski is on the water. It is a full concave ski, making it faster on the water. The ski has not one, but two flat spots, these are areas of the ski mostly at some point under the feet where the ski, if it was put on a flat surface, would be flat. The Encore utilises two of these, one for the stability and feel as the ski is in the pre turn phase and the other to allow the ski to hook up faster out of the turn without delay.

1 Year Warranty

Senate-C

Boot: Vector Front/RTP

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	65"	S			
	67"	Std			
	69"	XL			
Beginner				\$1219	\$1099

This all-carbon version is noticeably lighter, more nimble ski on the water and is considered to be by many the ideal 34mph tournament class ski. With approximately 5mm of extra fore body width over the Strada, equipped with a concave blending radius that improves turning grip to balance out the additional surface area.

1 Year Warranty

Strada

Boot: Vector Front/RTP

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	63"	S			
	65"	Std			
	66"	XL			
Beginner	69.5"			\$1829	\$1649

The Strada is the most user friendly balanced ride Radar has ever created. The signature rocker line is the foundation for this platform of speed and balance. The 5-level bevel configuration creates a quick turning on-side and a level off-side. Deep channelled tip contours remove excess mass in the tip. You will no doubt be impressed by the speed and balance of the Strada.

1 Year Warranty

"V"

Boot: Sidewinder Front/RTP

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	65"	S			
	67"	M			
	69"	L			
Beginner		XL		\$1239	\$1099
		XXL			

The V Ski is a high performance shaped ski that replaces the F1X. The V features Connolly's new V-stepped channeling system throughout the hull of the ski. These steps allow the ski to sit higher in the water with less drag, to make the ski faster. The width of the tail reduced so it sits a little deeper in the water and reduces bounce across the wakes. Higher performance at a greater speed!

2 Year Warranty

Carbon "V"

Boot: Talon Front/RTP

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	65"	S			
	67"	M			
	69"	L			
Beginner		XL		\$1899	\$1699
		XXL			

The Carbon V has a super light density foam core it is wrapped with 70% carbon to give the ski a light fast feel on the water. The carbon provides stiffness that delivers unreal speed out of the turn. Six V-shaped steps are molded into the hull for more efficient water flow. The steps create less wetted surface area, which means a faster freer ride on the water. A narrow tail lets the ski sit deep in the turns while a slightly wider tip provides surface area for a smooth non-critical turn. This ski is smooth and fast, exactly what tournament level 34 mph skiers are looking for which is wide, early and forgiving.

2 Year Warranty

Vice

Boot: Vector Front/RTP

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	63"	S			
	65"	Std			
	66"	XL			
Beginner	67"			\$1329	\$1199
	68"				
	69.5"				

The Vice can be best described as the Strada's 'alter-ego', and shares all of the features and characteristics of the shape of the Strada. The Vice has been constructed using a machined polyurethane core (stronger and lighter than traditional poured PU cores), offering greater swing weight through the edge change and a damper ride that is especially forgiving in varying water conditions.

1 Year Warranty

S2

Boot: Exo Form Double Cuff

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	64.5"	7			
	65.5"	8			
	66.5"	9			
Beginner	67.5"	10		\$1939	\$1749
		11			
		12			
		13-14			

The all new S2 takes everything the team knows about performance skiing and makes it easier for you to ski! With 100% carbon fibre reinforcements and now featuring step bottom technology which greatly reduces skier fatigue, the S2 will blow your mind.

2 Year Warranty

Coefficient X SL

Boot: Attack Front/RTP

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	65"	S			
	67"	Std			
	69"	XL			
Beginner				\$1329	\$1199

The Coefficient X-SL has a polyvinylchloride foam core which is 90/10 Carbon/Fibreglass construction making it a more responsive than the Coefficient X with the same Step Concave Technology, reducing drag. Utilising a significantly deeper concave, pintail geometry and 5-Stage rocker line. Each of these design elements holds the ski to the water surface achieving unparallel stability.

2 Year Warranty

A2

Boot: Exo Form Double Cuff

Level	Ski Sizes	Boot Sizes	Cat.	RRP	Price
Pro	64.5"	7			
	65.5"	8			
	66.5"	9			
Beginner	67.5"	10		\$1939	\$1749
		11			
		12			
		13-14			

The A2 slalom ski has a variable concave bottom. At the bindings, the concave of the A2 gives you all the grip and edge power you need. A shallower concave at the tip and tail gives it additional lift and speed. Designer Bob LaPoint also added more rocker in the tail, giving the A2 a quicker outside turn. The A2 features HO Sports' premier construction, including an incredibly lightweight PVC core and 100-percent carbon fibre reinforcements. Featuring a Variable Concave Design. Larger concave radius in the tail of the ski results in the fastest tail section of any ski on the market.

2 Year Warranty
