

Sky Skis & Accessories

Sky Ski Pro SS

The Sky Ski is redefining what is possible on and above the water. From your first steps of learning to fly, all the way through advanced manoeuvres and big air, the Sky Ski will transport you to a new world of flight. It is the latest development in Mike Murphy's 41 years as a waterskiing innovator.

Sky Ski Pro SS (with evolution tower)

The Evolution Tower is the latest development in strong, lightweight seat tower design, and yet this seat tower takes it even further! With over an inch of travel at the centre of the seat plate, this tower has a rock solid feel on take-off, and can still take the edge off the hard impact of landing those huge airs. With the seat belt swivel mounts mounted on the hinges themselves the belt stays tight even when the plate flexes.

Cat. Price
\$2499

THE LEGENDARY FREE-RIDE SHAPE GOT AN OVERHAUL FOR 2012

①
RONIX ONE

TIMEBOMB
The lightest, stiffest construction in the Ronix line. For the rider that wants the most attention off the wake.

ATR
Built with ingredients you need to take on any wake or cable park in your way.

MODELLO
The standard of how a light, stiff high end instant energy wakeboard should be made.
