## LE Element

H.O.'s most universal kneeboard is a slightly narrower version of the Joker. The thinner profile and hard rail edge makes the Element perfect for cutting and jumping front side or fakie. Extra width under the knees makes this a board that practically jumps off the wakes on its own! This classic ride comes standard with our pilot seat pad and 3" single-locking strap.

## Aurora

A ladies kneeboard with a wide based tip design, the Aurora has moulded-in fins making the Aurora a fun, stable, and comfortable board for all users. The moulded-in fins provide added stability yet still allow for a steady rail-like edge. Kneeboarders of all levels will appreciate the stability, while advanced riders will like the extra width under the knees which helps soften landings and promote spins.
